Milo Schield is a professor in Business Administration at Augsburg College with a Ph.D. in Space Physics from Rice University. He is the Director of the W. M. Keck Statistical Literacy project – a project “to develop statistical literacy as an interdisciplinary curriculum in the liberal arts.” He has been chair of the Business Department: the largest department at Augsburg. He has taught traditional statistics and critical thinking for more than 20 years at both the undergraduate and graduate levels. He has taught statistical literacy since 1998. He has given talks in more than a dozen countries on statistical literacy and written more than 50 papers. His articles have been published in the ASA’s Stats Magazine, in the AACU’s Peer Review and in books edited by leaders in mathematics and statistics education. Dr. Schield has organized sessions on statistical literacy at the last thirteen national meetings of the American Statistical Association. He is Vice President of the National Numeracy network, the US representative to the International Statistical Literacy project, and webmaster of [www.StatLit.org](http://www.StatLit.org): Google-rated as the #1 web site for statistical literacy with more than 175,000 visits and 200,000 downloads a year. Joel Best, author of *More Damned Lies and Statistics*, titled the last chapter, *Toward Statistical Literacy*. After noting the many problems facing this movement, he said, “*Despite these obstacles, a small educational movement advocating statistical literacy has emerged. Professor Milo Schield, Director of the W. M. Keck Statistical Literacy Project at Augsburg College in Minneapolis, is the movement’s leading voice.*”
