h-index 19 GS 14 15 RG

The h-index is an author-level metric that attempts to measure both the productivity and citation impact of the publications of a scientist or scholar.

The index is the number h of the scientist's most cited papers that have at least h citations

i10 index: 28 GS 14

i10-Index = the number of publications with at least 10 citations.

RGR: **Reads** (opens/downloads) of Schield paper from just ResearchGate website

Titles in Bold: Papers that have been peer-reviewed or were invited to appear in a journal or book.

Schield's 12/2025 Research Interest Score is higher than X% of researchers with work related to ...

97% Mathematics Education

94% Probability Theory

INSTRUCTIONS

To update data.

- 1 Create new sheet: Copy and create a copy
- 2 Sort by ID -- not by year. Newest to oldest
- 3 Update the data

To access **ResearchGate** citations by paper being cited

- 1 Select RESEARCH. In Stats overview, click on Citations VIEW
- 2 At the top under Research Items, select NEWEST (No need to repeat this)
Clicking on OLDEST works just one time. Then it must be re-selected.
- 3 Page down to find the section containing the next paper
- 4 Click on the desired item. Record citations and views.

To access **Google Scholar** with citations shown

- 1 Go to Google Scholar.
- 2 Access Milo Schild. Click on name to get to Augsburg profile
- 3 Add missing or unmatched (missing year) publications to profile as needed.

To access RG citations by year cited

- 1 Select STATS. In Stats overview, click on Citations VIEW
- 2 Select YEAR. Unfortunately, this is Year REPORTED; not the year PUBLISHED.

To access Google Scholar without citations shown

- 1 Go to Google Scholar.
 - 2 Access Milo Schild. Do NOT click on Profile
 - 3 Scroll down to next item.
- 10 2003

ADD CONTENT TO GOOGLE SCHOLAR

1. 'SIGN IN' to your Google Scholar profile

https://scholar.google.com.au/scholar?hl=en&as_sdt=0%2C10&q=milo+schield&oq=MILO+SCHIEL

2. Click on 'My profile'

3. To add publications, click on the + button and select from the list of the following options:

a) Add article groups: Articles will be grouped together by name.

Use the check box to select and add a group of articles under your name

b) Add articles: Lists articles individually.

Tick the check box to select and add the articles you have authored

c) Add article manually: If the article cannot be found, you can create an entry manually.

first, choose the publication type at the top of the form, then fill in as many fields as possible

[NOTE: Archiving your publication to the Research Profiles and Repository or personal web page will help Google Scholar find your publication.](#)

Remember to check which version of your paper you are permitted to archive and always link to an Open Access URL if available.
